Comments & Conclusions: Lane 3 is the test sample BEET JUICE POWDER (BP060621) Lanes 1, 2, 7, 8 are the reference samples used for comparison. This test sample, BEET JUICE POWDER (BP060621), is consistent with the chromatographic profile of the reference samples of *Beta vulgaris* used above. **This test sample BEET JUICE POWDER (BP060621) has characteristics of a customized extract derived from *Beta vulgaris* root.**

NOTE: The above conclusion may be a function of the natural variance found in botanicals &/or the extraction process used to create specific extracts. The growing and drying conditions, age, seasonal variations, geographic location, extraction solvents, etc. all play a role in the phytochemical fingerprint of botanicals as well as their extracts; hence, chromatographic variations are expected.
